## Why Ohrid is the best and unique place for your wedding day?

Sublime Ohrid is North Macedonia's most seductive destination. It sits on the edge of serene Lake Ohrid, with an atmospheric old quarter that cascades down steep streets, dotted with beautiful churches and topped by the bones of a medieval castle. Traditional restaurants and lakeside cafes liven up the cobblestone streets, which in high summer can be very lively indeed. Outside of July and August, the tourist circus subsides and the town becomes more lived in.

Macedonia's second city offers an appealing mix of Ottoman architecture and Byzantine churches, but the real draw is its sublime lakeside setting. Tranquil Lake Ohrid is ringed by mountains, attractive villages and beaches which come alive in summer with local people sunbathing and swimming in the crystal-clear waters. A balmy, Mediterranean climate and some of the lowest prices in Europe make this a viable alternative to the Italian lakes.
